

Supplies—

I'd recommend you get your supplies at a local Michael's and save some \$\$ by registering and installing the

Michael's app on your phone.

Typically, they offer 20-30% off your most expensive item or sometimes your whole purchase and you can get points towards saving money on future purchases.

You can also go online to either Jerrysartarama.com or DickBlick.com for supplies but I honestly do not think you have much time to wait for a delivery seeing class is so soon.
